Information

Aqualibi, a tropical escape filled with thrills and fun

Aqualibi truly lives up to its name. From the moment you step inside, the temperature rises, the air becomes softer—almost enveloping—and everyday life feels far away. Escape comes instantly: **29°C all year round**, a vibrant tropical atmosphere and the delightful sensation of changing latitude without leaving the country. It's a place designed for relaxing, having fun and sharing moments with family or friends in a joyful and exotic setting.

Spectacular attractions to enjoy together

Impossible to miss is the **new slide tower**, rising **25 metres high** and dominating the space. It serves as the starting point for **four spectacular water slides**, where visitors climb with excitement before plunging down, carried by the water and bursts of laughter. Each descent promises thrills—speed, adrenaline and pure enjoyment.

All around, the aquatic world comes alive with the sound of splashing water, joyful shouts and the constant rhythm of movement.

An aquatic paradise designed for relaxation too

But Aqualibi is not only about adrenaline. The park also knows how to slow the pace. Between slides, the **relaxation areas** offer a welcome break. Visitors can simply float, close their eyes for a moment and enjoy the warmth and the soft light filtering through the dome.

The atmosphere feels soothing, almost timeless. Many visitors speak of a **complete sense of disconnection**, like a spontaneous holiday even during a single-day visit. The body naturally relaxes, carried by the constant warmth and tropical surroundings.

A playful world for all ages

At Aqualibi, everyone finds their place. Younger visitors can explore **Kiddie Bay**, an area entirely dedicated to their imagination and energy. Water games, spontaneous laughter and first slides make it a safe and joyful space for children, while adults enjoy the experience alongside them.

This variety of spaces creates a unique rhythm: people meet up, explore separately and gather again. The day unfolds according to each person's wishes, in a welcoming and **family-friendly atmosphere**.

A sensory atmosphere that feels like travel

What often leaves a lasting impression are the **sensations**. The sound of flowing water, joyful laughter echoing through the space, the gentle light beneath the dome and above all the **enveloping warmth** that recalls tropical climates. Everything works together to create an immersive environment where visitors forget the weather outside and the rush of daily life.

Many leave with the same feeling: the sensation of having travelled—without a passport, without a plane—simply by letting themselves drift with the water and the atmosphere.
