Information

Ardenne Aventures – Ourthe River Descent, a promise of active escape along the water

Ardenne Aventures – Ourthe River Descent invites you to dive into the heart of the Ardennes, where nature sets the pace and every activity becomes a **breath of fresh air**. Here, adventure is lived to the fullest, between winding rivers, enveloping forests and shared moments of conviviality. Just a short walk from La Roche-en-Ardenne, the site is an ideal starting point for those who want to move, laugh and reconnect with what truly matters.

From the moment you arrive, the warm welcome sets the tone. The passionate and attentive team does everything to ensure the experience is smooth, enjoyable and adapted to everyone. You feel expected, guided and ready to enjoy a day filled with energy and good humour.

Glide along the Ourthe, at nature's pace

The **kayak descent on the Ourthe** is one of the flagship experiences. Paddling along the river, surrounded by wooded hills, creates an immediate feeling of freedom. The gentle splash of the water accompanies each movement, while the landscape slowly unfolds, inviting visitors to lift their eyes and breathe deeply.

Accessible and playful, this activity allows visitors both to expend energy and to savour the moment. The route alternates between livelier sections and calmer stretches, perfect for admiring the natural beauty of the Ardennes. Whether you are a beginner or more experienced, the descent becomes a suspended moment, ideal for sharing and laughter.

Multiply the experiences and challenge yourself in a friendly atmosphere

Ardenne Aventures is not limited to kayaking. The site offers a **wide range of activities**, each one inviting visitors to escape in a different way. **Paintball** stimulates teamwork and strategy, **axe throwing** surprises with its playful yet focused nature, while **shooting** and **wildcraft** provide another perspective on nature and its resources.

Through these experiences, the enjoyment comes as much from the action as from the atmosphere. The forest surrounds the participants, the sounds grow softer, and each activity becomes an opportunity to **challenge yourself without pressure**, in a relaxed and friendly spirit.

A gentle immersion in the authentic Ardennes

As the day unfolds, one thing becomes clear: everything here is designed to **discover nature differently**. Whether through a sporting activity or a discovery walk, the environment plays a central role. The scents of the forest floor, the light filtering through the trees and the silence—sometimes broken by laughter or the splash of water—create an almost magical atmosphere.

The experience unfolds without haste. Visitors take their time, exchange stories and savour every moment, carried by the rare feeling of being fully present, far from screens and everyday routines.
