If you want to get away from it all, if you're interested in photography, come and visit our Museum!

You'll discover over a thousand photographs in the permanent exhibition and in the temporary exhibitions, as well as cameras that will take you on a journey through time and space.

If you've got children in tow, they'll love the discovery trail, with its 1900 studio, optical illusions and image manipulations.

If you're curious, you'll be tempted to visit the library and the shop, or to take in the park's photographic decor while sitting on the grass or on the terrace of the Café.
