Station at 1100 m : Mons

Maestro

Located in the former Visitandines monastery, right in the heart of Mons, the University of Mons museum is a unique place where visitors come to explore, be surprised, and experience science differently.

A human-scale, welcoming museum where science, history and heritage come together with simplicity and curiosity.

Électrique ! — Current exhibition

In 2026, discover Électrique !, an exhibition that shows how electricity transformed our daily lives — our gestures, our homes, our habits — through everyday objects from the past, familiar or forgotten, reflecting a world in transition.

Created by historians and physicists, the exhibition blends discoveries, stories and simple hands-on experiences that clarify the phenomena without making them complicated.

For all audiences: families, curious visitors, schools.

A crypt full of history

In the monastery crypt, the permanent exhibition tells the story of the place. It's an intimate space enhanced by an original and playful video mapping that reveals the secrets of this former religious building, later a prison, an archives centre, and now a university museum.

Monthly visits and experiences

Guided tour Behind the Monastery : every 2nd Sunday of the month, a 1h30 tour of spaces normally closed to the public (not accessible for wheelchair users).

Planetarium sessions: every 3rd Sunday of the month, a one-hour journey through the night sky for children and adults.

A lively programme all year long

Talks, late-night openings, workshops, scientific and cultural events: MUMONS is a place to return to, supported by warm, relaxed and accessible mediation.

See you soon at MUMONS!
