

BRUSSELS PLANETARIUM

Railway station at 1500 m

Car park

Coach park
4 parking spots

Maestro

6 Houba-Brugmann

The Universe in the heart of the City!

Discover the marvels of a starry sky projected onto a 360° screen measuring 23 metres in diameter!

At the Planetarium, you can see a rocket launch from right up close, observe Earth from Space, visit the International Space Station, fly over the surface of Mars and get near the rings of Saturn!

And why stop there? Would you dare overstep the limits of the Milky Way?
Or explore the outer confines of the Universe?

Audio system in English, French and Dutch.
