Bubbling natural springs and their time-honoured properties remain the ultimate source of wellness...

Founded in 1868, the "Thermes de Spa" spa and wellness centre is set in beautiful natural surroundings. Water overflowing with Earth's natural powers is everywhere here.

A genuine revelation, born out of an encounter between rock and nature, our water is a health-giving element that massages, invigorates and relaxes, just as it used to do for the great names of this world.

800 m<sup>2</sup> of indoor and outdoor baths fed with natural mineral water from the Clémentine spring, at a temperature of 33°C, together with over 100 hydromassage nozzles, relaxation areas, saunas and steam rooms.

Our ancient Spa expertise is best savoured at the Institute, offering a range of balneotherapy treatments with acclaimed benefits, body & face beauty treatments and massages.

Our team is dedicated to your ultimate relaxation and well-being!
