## Information

### Monde Sauvage Safari Park, a wildlife journey through nature to experience as a family

At the **Monde Sauvage Safari Park**, the escape begins as soon as you arrive. Located **about twenty kilometres from Liège**, this unique park in Wallonia invites visitors to enjoy a **true safari day**, combining discovery, wonder and respect for the animal world. Here, you observe, learn and marvel and many visitors leave with this little phrase in mind: *Tell me, tell me the name of an animal!*

The setting is vast, green and immersive. Everything is designed to offer visitors a gradual immersion into animal worlds from across the globe.

### An African safari experience

The experience begins with one of the most memorable moments of the visit: the **safari by small train or by car**. Slowly, the vehicle moves through large open areas where animals live in **semi-freedom**. Giraffes, zebras, rhinoceroses and many other species appear almost at eye level, in a natural landscape that reinforces the feeling of travel.

This safari also provides an opportunity to discover **endangered species**, such as the **scimitar-horned oryx**, once extinct in the wild and now reintroduced thanks to conservation efforts. The explanations shared along the route add meaning to the sense of wonder and highlight the important role zoological parks play in preserving biodiversity.

### A walking trail full of encounters

After the motorised safari, the visit continues with a **walking trail of about 2 km**, along pleasant paths in a wooded natural environment. The pace changes, and observation becomes more attentive and intimate. Visitors encounter an incredible diversity of animals: **chimpanzees, orangutans**, the unusual **binturong**, majestic **Aldabra giant tortoises**, the **fossa**, and an impressive pair of **Amur leopards**.

The route also leads to the **South American plateau**, where giant anteaters, maned wolves and capybaras surprise visitors with their distinctive appearance and behaviour. Around every corner, a new species draws attention, sparks questions and inspires amazement.

### Educational shows that leave a lasting impression

Throughout the day, the Monde Sauvage offers **three educational shows** that are particularly popular: **parrots, sea lions** and **birds of prey**. These highlights skillfully combine **learning and entertainment**, showcasing the connection between animal keepers and the animals.

The demonstrations are lively, accessible to all ages and rich in explanations. They help visitors better understand animal behaviour, intelligence and abilities, strengthening the link between wonder and knowledge that defines the park.

## A full day of nature and adventure

The Monde Sauvage Safari Park is also a place where visitors can easily spend **an entire day** without rushing. Families appreciate the variety of experiences, the spacious setting, the clear layout of the routes and the balance between calm observation and more dynamic moments. The **Fraxinus Adventure Park** further complements the visit for those who wish to add an extra activity to their day.

The site appeals with its natural atmosphere, its respectful approach to animals and its ability to engage both children and adults. Visitors learn, marvel, share and create lasting memories together.

Car park      Coach park
