Information

Topiary Park, a promise of botanical wonder above Durbuy

The **Topiary Park** is a place where nature becomes a work of art. Across **10,000 m²**, this garden of sculpted plants displays more than **250 vegetal figures**, some shaped for **over 120 years**. Set on a hillside, **overlooking Durbuy** and the Ourthe valley, the walk invites visitors to slow down, observe and be surprised by a **patient craftsmanship** that transforms plants into living poetry.

From the entrance, shades of green unfold in all their nuances. The quiet is punctuated by birdsong and delighted smiles: here, every turn reveals a new discovery, every silhouette tells a story.

A unique vegetal art shaped by patience

The heart of the park beats to the rhythm of **topiary sculptures**: animals, characters and unexpected shapes emerge from hedges trimmed with remarkable precision. Visitors recognise a **crocodile**, smile at a **Manneken Pis**, and linger before monumental pieces. This diversity, rare in Europe, gives the garden a **living and ever-changing** dimension throughout the seasons.

The work of the gardener-artist is visible everywhere. Visitors often say: *What an exceptional work of patience*. Here, the human hand accompanies nature without forcing it, revealing its beauty rather than constraining it.

An artistic walk overlooking the valley

The setting is exceptional. The park overlooks the **Old Town of Durbuy**, offering a **peaceful panorama** across the valley. The walk becomes a dual experience: artistic through its shapes and contemplative through its landscapes. In spring, the greens are soft; in summer, deep; in autumn, they turn to **golden and copper tones**. Each season reinvents the experience.

Visitors stroll slowly, observe the curves and listen to the garden. Time seems to stretch, inviting a **moment of calm** away from the bustle.

Stories that bring the garden to life

The Topiary Park is also a place of stories. Its mascot, **the yew elephant**, standing **4 metres tall**, was placed in its location **by helicopter**. An anecdote that always raises a smile and reflects the scale of the creations. In **2003**, during an exceptionally hot summer, the park even closed for two days to allow the **irrigation of 50,000 litres of water**, a testament to the care devoted to this living heritage.

These stories highlight the daily commitment required to preserve such a demanding art.

A garden to dream, understand and breathe

Sculpted nature, craftsmanship and quiet wonder The Topiary Park is a **green haven** where visitors learn to see nature differently. Families enjoy an accessible and playful walk, couples share a suspended moment, and curious minds find a source of inspiration.
